FUGE CAMPS

Promotional/ Fund Raising Ideas

Camp is a great place for both believers and non-believers. Each summer, God works through camp to bring His children into a deeper love for Him, as well as to bring new believers into the Kingdom. We know that God has planned far in advance for those who will come to camp, and how he will work in each student's life. We encourage you to continue to promote and prepare your students during the months leading up to camp. If they have been to camp before, remind them of how it affected them, and that it could have the same power in one of their friends' lives. Challenge your students to invite a friend to camp with them, and keep them accountable as camp approaches.

Promotion Ideas

- **Establish an incentive.** Tell your students that if all of them (or a certain percentage) has a friend register for camp, there will be a reward. Shave a Mohawk in your head. Throw a victory party. Let them pie the pastor in the face. Get creative!
- **Mention it weekly.** Continuously remind your students to sign up for camp. Utilize videos, posters, pictures from previous years at camp, and creative announcements as promotional tools. Make sure to recognize students who have a friend register.
- **Student Testimonies.** If you have students that have attended camp before, have them give a brief testimony of their experience at camp. In the months leading up to camp, have students speak at various youth meetings/events.
